

# Release Notes

## Intel® PROSet/Wireless Wi-Fi Software 23.0.5 – Intel® Wi-Fi 7 products

### Important Notice

- This software is dedicated **only** for the Intel® Wi-Fi 7 products - Intel® Wi-Fi 7 BE202 and Intel® Wi-Fi 7 BE200. Please do not install this software on the other Intel® wireless products.
- The Wi-Fi 7 is not currently available because of pending OS support. As a result, after installing the drivers, the Intel® Wi-Fi 7 products function with Wi-Fi 6E capabilities on Windows 11\*.

### Supported Operating Systems

Microsoft Windows 11\*

### Supported Products and Driver Versions

| Intel® Wireless Adapter | Windows 11* |
|-------------------------|-------------|
| Intel® Wi-Fi 7 BE202    | 23.0.5.7    |
| Intel® Wi-Fi 7 BE200    |             |

### Key Issues Fixed and Changes: Package Version 23.0.5

| Description of Key Issue   | OS    |
|--|-------|
| This is the first release to provide drivers for the new products Intel® Wi-Fi 7 BE202 and Intel® Wi-Fi 7 BE200  | Win11 |
| This software release version 23.0.5 has been updated to include functional updates. There may be other minor issues addressed which will impact performance, stability, or vendor specific functionality not listed above. Users should update to the latest version. | Win11 |

### Legal Notices

No license (express or implied, by estoppel or otherwise) to any of Intel's intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade.

This document contains information on products, services and/or processes in development. All information provided here is subject to change without notice. Contact your Intel representative to obtain the latest forecast, schedule, specifications and roadmaps.

The products and services described may contain defects or errors known as errata which may cause deviations from published specifications. Current characterized errata are available on request.

Intel technologies' features and benefits depend on system configuration and may require enabled hardware, software or service activation. Performance varies depending on system configuration.

No computer system can be absolutely secure. Check with your system manufacturer or retailer or learn more at [intel.com](http://intel.com).

Tests document performance of components on a particular test, in specific systems. Differences in hardware, software, or configuration will affect actual performance. Consult other sources of information to evaluate performance as you consider your purchase. For more complete information about performance and benchmark results, visit <http://www.intel.com/performance>.
